

Greenwood and Bridgeville Transportation Plan

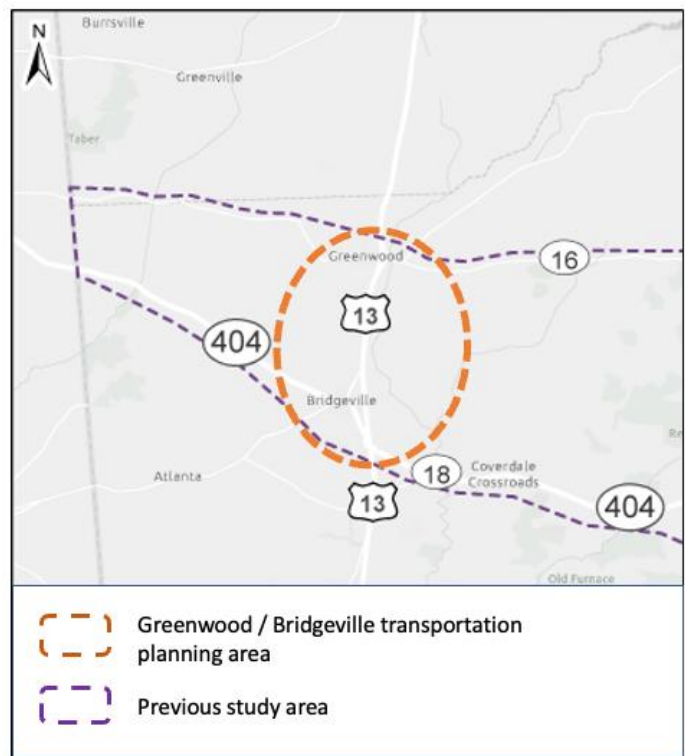

+ Purpose and Overview

DelDOT Planning is working with the towns of Greenwood and Bridgeville to develop a future looking, long range transportation plan for Greenwood, Bridgeville and the areas surrounding the towns, which will help integrate transportation improvements with community goals and visions.

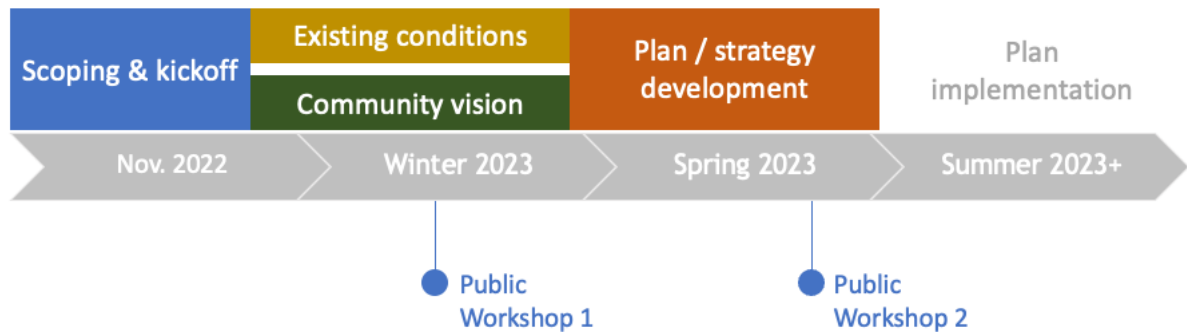

The planning process will focus on safety, mobility, economic development, quality of life, and other topics that emerge.

This effort is an outgrowth of the [Coastal Corridors Study](#) which focused on the east-west roads from the Maryland State Line to SR 1, between SR 16 and SR 404. The study collected traffic data across the area--including vehicle volumes, movement patterns and crash data--and held listening tours with residents, business owners and elected officials during late 2020 and early 2021. Findings pointed to more immediate attention needed in the eastern portion of the study area (east of US 113), while the western portion (west of US 113) presented the opportunity to proceed with a longer-range transportation and community planning approach.

+ Planning Process

Planning Process

+ Community Involvement

Stakeholder Committee

Town managers and other community representatives meet monthly to provide input on existing conditions and concerns, represent the community perspective, offer suggestions to DeIDOT and the Towns, and help engage the community throughout the process.

Stakeholder Committee Kickoff Meeting – November 2nd, 2022

Meeting Notes:

Meeting Recording:

Stakeholder Committee Meeting #2 – December 8th, 2022

Stakeholder Committee Meeting #3 - TBD

Public Workshops

The public is encouraged to get involved with this planning effort to help shape the future of our community. This page will be updated with specific details as they are available.

Public Workshop 1

Review of existing conditions and community vision, and opportunity to provide feedback via surveys and stakeholder engagement.

Planned for Winter 2023. Details are forthcoming.

Public Workshop 2

Review the draft plan.

Planned for Spring 2023. Details are forthcoming.
